SHABBY
CHIC

SHABBY CHIC

Inspired by traditional painted furniture, our 'shabby chic' finishes have a certain charm and character that sits perfectly well in Town Houses and Country Cottages alike. Choose from our Distressed Paint or Vintage Paint finishes... either of which will complement your chosen scheme. As previously mentioned, all the paints and lacquers that we use are water based.

Distressed Paint

A process whereby the top coat required is applied over a complementary coloured base coat. The items are then distressed by hand, to allow areas of the base coat to show through and are finally finished with a natural wax for a soft sheen. This results in an authentic 'aged' appearance.

Our standard base coat colour is Wainscott Brown from the renowned Farrow and Ball selection of paints. However, you may opt for whichever base coat you wish.

Vintage Paint

A superior finish from a bygone era ... the perfect accompaniment for vintage fabric and period styling. Similar to our Standard Paint range, but with a little more character and a genuine 'old paint' feel.

An 'old fashioned' chalk paint is applied to our hardwood poles over several layers and then softened by a blend of antique waxes carefully hand applied and polished to a soft sheen.

The 5 colours in this range have been carefully selected for their tonal neutrality with a slightly faded appearance to enable them to sit well against many of today's vintage style fabrics.
